On February 17, 1989, US Sprint Communications Company filed with the Public Service Commission of South Carolina (the Commission) changes in its South Carolina Tariff P.S.C. No. 2. The purpose of the filing is to introduce a new miscellaneous service offering, Mechanized Calling Card Service (MCCS). MCCS will allow customers to charge calls to their local exchange carrier's calling card from coin and coinless push button pay telephones pre-subscribed to US Sprint.

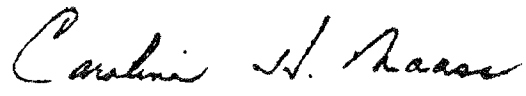

The matter was duly noticed and a Petition to Intervene was received by the Commission on behalf of Southern Bell Telephone and Telegraph Company (Southern Bell). Subsequently, by letter dated March 23, 1989 Southern Bell sought to withdraw its intervention in the instant docket based on assurances from counsel for US Sprint that the introduction of mechanized calling card service is for inter LATA purposes only.
